

The 20164 EFI hutch is 18% smaller than the 24174 models, allowing dairy farmers to take advantage of a reduced footprint and economies of scale.

## OUR 20 | 64 EFI HAS BEEN DESIGNED FOR OPERATIONS WHERE ECONOMY OF SPACE AND EFFICIENCY OF OPERATION ARE EQUAL PRIORITIES.

### FEATURES

- Calf-Tel's special grade of durable, high density, thermoformed plastic is long lasting, and easy to clean.
- A flat back design, allowing it to be tipped up for easy cleaning.
- A flat back ventilation door for maximum air transfer.
- Easy to move, manage and maintain your units
- Extremely durable, but light enough to handle easily
- Designed so each calf can seek its ideal microenvironment
- Compact and economical
